AEW 2024 THE EVENT

The Order of Engineers of Angola (OEA), in collaboration with UNESCO, FAEO, and WFEO is organizing the 10th UNESCO Africa Engineering Week and the 8th Africa Engineering Conference, which will take place in Luanda, the capital of the Republic of Angola, between 9th and 13th September 2024.

- AIM

The event will focus on engineering aims to educate the youth and the general public about the engineering profession, through strategic outreach activities such as educational workshops, public awareness events, mentoring activities and university events. The aim of the event is to show how engineers are key players in the solutions to important continental challenges, such the provision of clean drinking water, sustainable housing, and issues around climate change.

Africa, together with the rest of the world, is faced with a shortage of engineers. This is a major concern, particularly as there has been declining interest in the profession from the youth, with the enrolment of young people, especially women in the profession dwindling.

Engineering is vital to addressing basic human needs, improving the quality of life, and creating opportunities for sustainable prosperity on a local, regional, and national level. The continent faces a situation where there are a lot of older more experienced engineers, but not enough young candidate engineers entering the profession. Our ability to sustain the profession lies heavily in the number of young people choosing engineering as a career.

- Objectives

1. To increase the visibility of engineering and its role in sustainable development;
2. To encourage students to study engineering by supplementing STEM curriculum with practical engineering applications;
3. To incite more African countries to participate ensuring the sustainability of these efforts.

The activities during Africa Engineering Week will increase the visibility of engineering, which is particularly important in the continent where there is a great need for engineers to achieve the Sustainable Development Goals (SDGs).

The Order of Engineers of Angola (OEA), in collaboration with UNESCO, FAEO, and WFEO is organizing the 10th UNESCO Africa Engineering Week and the 8th Africa Engineering Conference, which will take place in Luanda, the capital of the Republic of Angola, between 9th and 13th September 2024.

- **Format**

The event aims to bring together more than 300 participants per day in person at Luanda intercontinental hotel and an unlimited online participants via WEBEX Cisco platform with translation services. The weeklong event will comprise the following activities:

1. Engineering Congress, Convention or Conference;
2. Women in Engineering and/or a Young Engineers and Future Leaders Forum;
3. Workshops on Infrastructure Development;
4. Industry Cluster displays;
5. Educational activities, training courses;
6. University activities and events;
7. Public awareness events, Mentoring events and much more!

- **General Agenda**

Each activity will have its own agenda, divided by theme and its respective panellists:

- Proposed Days – 9th to 13th September 2024
- Main Activities:
 - ✓ Africa Engineering Week Conference
 - ✓ Women's Forum
 - ✓ Young Engineers Forum
 - ✓ Capacity Building Forum
 - ✓ Gala Dinner and Awards Night
 - ✓ Council Meeting and Other Side Meetings

THE EVENT

- Website project

Website will be available by end of May 2024

The screenshot shows the homepage of the event website. At the top, there is a navigation bar with links: Home, About Event, Event Details, Programme, Accommodation, Shuttle, and Sponsors And Exhibitors, followed by a prominent blue 'BUY NOW' button. Below the navigation bar, a row of logos includes the Ordem dos Engenheiros Angola, the Fédération Mondiale des Organisations d'Ingénieurs, and the UNESCO logo. Further down, logos for the African Union Scientific Technical Research Commission, the African Scientific Research and Innovation Council, and the Agenda 2063 'The Africa we Want' are displayed. The main title of the event, '10TH UNESCO AFRICA ENGINEERING WEEK & 8TH AFRICA ENGINEERING CONFERENCE', is centered in large white text. Below the title, three hexagonal images show modern cityscapes with bridges and buildings. The tagline 'ENGINEERING THE FUTURE' is written in large white letters, followed by the subtitle 'INNOVATIVE INFRASTRUCTURE SOLUTIONS FOR A SUSTAINABLE AFRICA AND SWIFT AFCFTA IMPLEMENTATION.' The dates '9TH - 13TH SEPTEMBER 2024' and the times 'MONDAY TO FRIDAY - 9AM TO 5PM (WAT)/ 10 AM TO 6PM (CEST)' are listed below. At the bottom left, a location pin icon is next to the text 'INTERCONTINENTAL'. The background of the website features a dark blue color with a subtle geometric pattern of interconnected dots and lines.

- 16h40 – Q & A
- 17h00 – Final remarks & end of meeting

- **Scientific Committee**

- Ph.D. António André Chivanga Barros – Angola
 - Ph.D. Didier Nyembwe (to be invited) – South Africa
 - Ph.D. Feliciano Ricardo Cangué - Angola
 - Ph.D. Roger Máfua - Angola
 - Ph.D. Rildo Francisco – Angola
 - Dr. Mohammed Kyari – ASRIC AU
 - Dr. Mudi Bashir – ASRIC AU

- **Focal Points**

Scientific team:

- Ph.D. António A. Chivanga Barros (chivanga.barros@isptec.co.ao)
- Ph.D. Feliciano Ricardo Cangue (feliciano.cangue@isptec.co.ao)

Young Leaders Forum:

- Eng. Amilcar Peres (amilcar.peres@gmail.com)
- Eng Manda Satshishinga
- (manda.satshishinga@ordemengenheiros.ao)

Woman Engineering Forum:

- Eng. Ariana da Silva (arianacea@hotmail.com)
- Eng. Vera Mário (vera.mario@ordemengenheiros.ao)

- **Calls for Bootcamp applications 2024**

OEA was asked in last meeting to identify institutions that could be part of the Bootcamp and not to prepare calls for applications as per stated in last minutes 004 of Stercom. April 18, 2024.

To send out calls for applications we would need to understand how the Bootcamp should be designed:

1. Theme and objectives;
2. Who can participate and how (students, professors, in teams or singular)
3. How and where the application should be submitted;
4. Who and How the Bootcamp will be delivered, and in which languages, virtual/presential;
5. The award for the winning team or person (if any).

- **Calls for Bootcamp applications 2024**

- OEA Focal Point for Bootcamp to liase with local institutions:
Ing. André Baptista (andre.baptista@ordemengenheiros.ao)

Some institutions that would be part of the Bootcamp:

- Agostinho Neto University
- Catholic University of Angola
- Methodist University of Angola
- Higher Polytechnic Institute of Technologies and Sciences – ISPTEC
- Other Higher education institutions
- Private and public technical high schools in Luanda
